KAIZEN HEALTH SUMMIT

Grand Hirafu, Niseko | 17-22 January 2027

CLINICAL UPDATE • SKILL BUILDING • COLLABORATIVE LEARNING

CONFERENCE PROGRAM

DAY	TOPIC	OVERVIEW
SUNDAY	**Conference orientation & delegate networking**	Orientation and facilitated introductions to support multidisciplinary networking and collaboration.
MONDAY	**Anaesthesia update: What has changed in the past two years?**	Key developments in perioperative care, airway management and anaesthetic safety.
	Frontiers of Genetics: Where will we be in 20 years?	The future of genomic sequencing, gene therapy and personalised medicine.
	Speaking up for safety	What features ensure staff can and do raise concerns across professional disciplines.
TUESDAY	**What nurses notice first**	Early recognition of deterioration and effective escalation of care.
	Advances in Emergency Medicine	The biggest changes impacting care in recent years.
	Beyond the screen: What will healthcare look like in 15 years?	How virtual care will transform the health landscape
WEDNESDAY	**Creating a more environmentally sustainable health system**	Reducing emissions, waste and unnecessary resource use in healthcare.
	From sparks to shrooms	Clinical Update on interventional psychiatric practices
	Genetics beyond diagnosis	How genomics can influence surveillance, treatment and counselling.
THURSDAY	**How to build resilience in health staff**	Strategies that promote both wellbeing and resilience in staff
	The Fragile Generation: Understanding the genesis of Generation F	Why are mental health difficulties increasing among young Australians, alongside concerns about declining resilience and coping capacity?
	Personalised healthcare without losing the person	Combining precision medicine with patient goals and functional assessment.
FRIDAY	**Critical feedback without the fallout**	Formal models of feedback for giving performance feedback to anxious, self-critical and fixed-mindset introspective learners
	NDIS from the perspective of allied health	How the planned changes will impact patients and allied health professionals
	The future health professional	Working effectively with artificial intelligence, technology and multidisciplinary teams.
LEARNING FORMAT	Daily presentations are complemented by 2-4 hours of online learning materials designed to consolidate key concepts, extend topic knowledge and support practical application.
